The species are as follows:

The method for recording information to an optical recording medium of:

figs. 1 and 9 [first embodiment];

figs. 1 and 10 [second embodiment]; and

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are considered generic.
Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

In accordance with 37 CFR 1.499, the Applicants are required, in reply to this action, to elect **a single invention** to which the claims must be restricted.

2. A telephone call was made to Mr. David Carlson on December 21, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

NOTE: Mr. Carlson waited for client's reply however non was received as of December 27, 2006, so it was agreed that a formal restriction be sent out for examination of the client.

3. Applicant is reminded that upon the cancellation of claims to a non elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application.
